

Why LCPS?

Quality Team

LCPS works closely with our strategic partners who are led by a group of experienced scientists who all have long-term international R&D background and the pharmaceutical professionals who have in-depth pharmaceutical industry experience for famous multinational pharmaceuticals like Roche, AstraZeneca, Merck and etc. We also have build up the strategy alliance with the top Chinese governmental funded research institute, such as CAIQ (Chinese Academy of Inspection and Quarantine), Chinese PLA center for Disease Control and Prevention etc and largest manufactories in China, such as NCPS, CSPC etc.

Quality Assurance

Based on our outsourcing project management experience, LCPS will monitor strictly for the outsourcing partners according to the SOPs, technical standards and regulations provided by our customers. The Chinese Labs we work with are all GLP certified and strategic partner pharmaceutical companies all have GMP certification.

Quality Equipments

The China outsourcing partners fully equipped with state of art facilities including:

ABI 3730xl DNA Analyzers and Amersham MegaBace 4000 DNA Analyzer

Sequenom Flight Time Mass Spectrum SNP Examination System and ABI PRISM 7700 Sequence Detection System

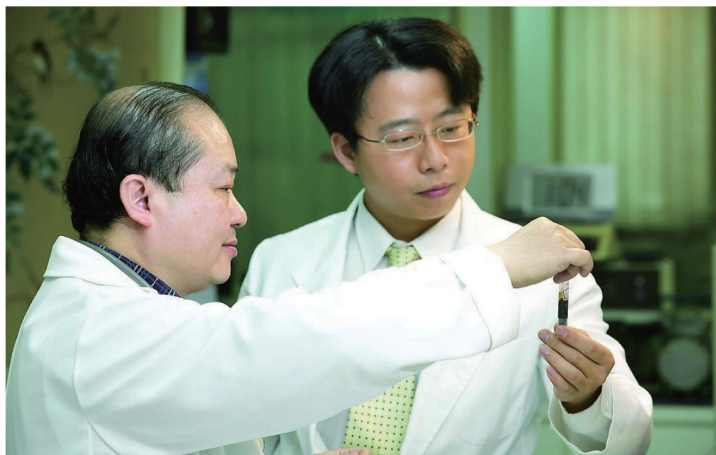

PerkinElmer Fluorescence Polarization Gene Minute System and Illumina-Bead Station 500G Gene Minute System

Flexstation II Plate Reader and Analyst HT Assay Detection System

Akta Liquid Chromatography Separating Systems, ThermoFinnigan LCQ Deca-XP Ion Trap Mass Spectrometer and ABI QStar XL Q-TOF Mass Spectrometer

Automatic Biochemistry Analyzer, Hematology Analyzer, Automatic Blood Coagulation Analyzer, Reticulate Counter, Behavior Testing System, Hydroextracter, Microtome, Cryostat Microtome and Imagine Analysis System.

CelliGen Plus Stirred-Tank Bioreactor and BioFlo Pro Customizable SIP

First Fully-Automatic and Modular Production Line in China

Excellent logistics Services:

The time zone difference can be overcome by our local office operation. In the past 20 years, China consistently improves the infrastructure and all goods can be delivered in the short notice. Worldwide-specialised courier companies now cover many cities in China.
